

SOCIETY OF PLASTICS ENGINEERS
Promoting the Scientific and Engineering Knowledge of Plastics
Nebraska Section #53

August 27, 2007

Subject: Sponsorship of Nebraska Section of the Society of Plastics Engineers

Hello Supporters of Nebraska Section of SPE,

Thank you for your support of Nebraska SPE during the 2006 - 2007 season. With your help we hosted a number of educational meetings that included specialty resin compounding and other hot topics. Each monthly meeting helps Nebraska SPE meet its goal of "Promoting the Scientific and Engineering Knowledge of Plastics" to plastic professionals. Students from local colleges are also beneficiaries of Nebraska SPE programs. Local colleges were awarded over \$2,000.00 in scholarships on the behalf of Nebraska SPE. The website www.nebspe.org has been a great tool for Nebraska SPE to keep members informed about upcoming events. It also provided our sponsors advertising information for our members to reference.

Nebraska SPE needs your sponsorship for this 2007-2008 season to continue to educate and connect even more plastics professionals and students!

- (1.) To continue to be a supporter of SPE Nebraska, please return the sponsorship form in the self addressed and stamped envelope provided to Dave O'Brien.**
- (2.) This year we are going to improve the quality of our newsletter by going to an electronic format. Please send your electronic formatted advertisement to Joe Allen jallen@airliteplastics.com and Larry Koester lkoester@phonet.com**
- (3.) We also plan on publishing a special advertiser's promotion piece, which will be sent to each of our members, and published on our website. Please send a 200 word description of your company and two or more pictures of your products, plants or people to Jay Van Roy jay.vanroy@polyone.com and Larry Koester lkoester@phonet.com**

Nebraska SPE thanks you for helping us prosper throughout the years. Please show that you care about the future of the plastics industry and continue to be a sponsor for Nebraska SPE! We welcome any comments, questions, or suggestions that you may offer. Thank you for your continual support of SPE Nebraska and the plastics industry!

Thank you!

Sponsorship Committee, Nebraska SPE
